## SUBJECT INDEX

## A

**Acebutolol**

Effects of acebutolol on myocardial infarct extension: a randomized electrocardiographic, enzymatic and angiographic study, 986

**Adenosine**

Myocardial lactate and adenosine metabolite production as indicators of exercise-induced myocardial ischemia in the dog, 555

Treatment of paroxysmal supraventricular tachycardia in infancy with digitalis, adenosine-5'-triphosphate, and verapamil: a comparative study, 504

**Afterload**

Afterload mismatch and preload reserve in chronic aortic regurgitation, 826

**Aging**

Lipomatous hypertrophy of the interatrial septum: in vivo diagnosis, 470

**Airway pressure**

Cardiopulmonary interactions. Letter and response, 1347

The effects of airway pressure on cardiac function in intact dogs and man, 108

**Alcohol**

Effects of alcohol use and other aspects of lifestyle on blood pressure levels and prevalence of hypertension in a working population, 60

The pressor effect of moderate alcohol consumption in man: a search for mechanisms, 515

**American Heart Association**

AHA diet recommendations. Letter, 480

**Amiodarone**

Pharmacokinetic significance of serum reverse T<sub>3</sub> levels during amiodarone treatment: a potential method for monitoring chronic drug therapy, 202

**Aneurysm, aortic**

Two-dimensional echocardiographic evaluation of aneurysms of the descending thoracic aorta, 1045

**Aneurysm, atrial**

Congenital aneurysms of the left atrium: recognition by cross-sectional echocardiography, 1065

**Aneurysm, atrial septal**

Atrial septal aneurysm and midsystolic click. Letter, 680

**Aneurysm, coronary artery**

Aneurysms of the coronary arteries in Kawasaki disease. An angiographic study of 30 cases, 6

**Angina pectoris**

The additive antianginal action of oral nifedipine in patients receiving propranolol. Magnitude and duration of effect, 710

A double-blind randomized trial of propranolol and verapamil in the treatment of effort angina, 574

Ejection fraction response to exercise in patients with chest pain, coronary artery disease and normal resting ventricular function, 643

European Coronary Surgery Study. Letter and response, 1349

Evaluation of antianginal drugs. Letter and response, 902

Increased exercise tolerance and reduced electrocardiographic ischemia with diltiazem in patients with stable angina pectoris, 23

Serial thallium-201 myocardial imaging after dipyridamole infusion: diagnostic utility in detecting coronary stenoses and relationship to regional wall motion, 649

Sex differences in obstructive coronary artery disease in patients 65 years of age or older with angina pectoris, 926

Treatment of stable angina of effort with verapamil: a double-blind, placebo-controlled randomized crossover study, 569

**Angina, unstable**

The effect of intraaortic balloon counterpulsation on regional myocardial blood flow and oxygen consumption in the presence of coronary artery stenosis in patients with unstable angina, 593

**Angina, variant**

Clinical characteristics associated with sudden death in patients with variant angina, 88

Failure of thromboxane A<sub>2</sub> blockade to prevent attacks of vasospastic angina, 702

Pathophysiology of coronary artery spasm, 705

Percutaneous transluminal coronary angioplasty in patients with variant angina, 695

Thallium-201 uptake in variant angina: probable demonstration of myocardial reactive hyperemia in man, 1332

**Angiography**

Angiocardiography of multiple ventricular septal defects in infancy, 1094

Precordial ST-segment depression during acute inferior myocardial infarction: clinical, scintigraphic and angiographic correlations, 732

Preoperative angiographic diagnosis of primary sarcoma of the pulmonary artery, 72

Prognostic value of exercise testing, coronary angiography and left ventriculography 6-8 weeks after myocardial infarction, 527

Radionuclide angiographic assessment of global and segmental left ventricular function at rest and during exercise after coronary artery bypass graft surgery, 972

"Sawfish" systolic narrowing of the left anterior descending coronary artery: an angiographic sign of hypertrophic cardiomyopathy, 800

Sequence and timing of ventricular wall motion in patients with bundle branch block. Assessment by radionuclide cineangiography, 1113

Significance of the angiographic morphology of localized coronary stenoses: histopathologic correlations, 316

**Angiotensin-converting enzyme**

Regional and systemic metabolic effects of angiotensin-converting enzyme inhibition during exercise in patients with severe heart failure, 1256

**Animal studies**

Effects of physical training on myocardial vascularity and perfusion, 491

Perioperative myocardial infarction: late clinical course after coronary artery bypass surgery, 1185

Precordial ST-segment depression during acute inferior myocardial infarction: clinical, scintigraphic and angiographic correlations, 732

Prognostic value of exercise testing, coronary angiography and left ventriculography 6-8 weeks after myocardial infarction, 527

QRS scoring system for estimating infarct size. Letter and response, 251

Quantification of experimental myocardial infarction using nuclear magnetic resonance imaging and paramagnetic ion contrast enhancement in excised canine hearts, 1012

Recurrent myocardial infarction: clinical predictors and prognostic implications, 415

Renin-angiotensin system inhibition in acute myocardial infarction in dogs. Effects on systemic hemodynamics, myocardial blood flow, segmental myocardial function and infarct size, 1249

RV response to MI. Letter and response, 251

Serial evaluation of myocardial thickening and thinning in acute experimental infarction: identification and quantification using two-dimensional echocardiography, 174

Spontaneous changes in left ventricular function over the first 24 hours of acute myocardial infarction: implications for evaluating early therapeutic interventions, 748

Suppression of ventricular arrhythmias by propafenone, a new antiarrhythmic agent, during acute myocardial infarction in the conscious dog. A comparative study with lidocaine, 1190

Timolol-related reduction in mortality and reinfarction in patients ages 65-75 years surviving acute myocardial infarction, 1179

Uptake of iodine and radionuclides by the infarcted cardiac muscle. Letter and response, 1136

**Myocardial ischemia**

Contractile reserve and left ventricular function in regional myocardial ischemia in the dog, 121

Divergent effects of inotropic stimulation on the ischemic and severely depressed reperfused myocardium, 397

Editorial: The nitrates and myocardial ischemia, 689

Editorial: The stunned myocardium: prolonged, postischemic ventricular dysfunction, 1146

Electrocardiographic localization of coronary artery narrowings: studies during myocardial ischemia and infarction in patients with one-vessel disease, 1168

Increased exercise tolerance and reduced electrocardiographic ischemia with diltiazem in patients with stable angina pectoris, 23

Intermittent brief periods of ischemia have a cumulative effect and may cause myocardial necrosis, 1150

Myocardial lactate and adenosine metabolite production as indicators of exercise-induced myocardial ischemia in the dog, 555

Pharmacologic modification of myocardial ischemia, 548

Quantitative effect of early coronary artery reperfusion in baboons. Extent of salvage of the perfused bed of an occluded artery, 391

Studies of platelet factor 4 and beta thromboglobulin release during exercise: lack of relationship to myocardial ischemia, 3

**Myocardial perfusion**

Assessment of myocardial perfusion abnormalities with contrast-enhanced two-dimensional echocardiography, 166

Tomographic thallium-201 myocardial perfusion scintigrams after maximal coronary artery vasodilation with intravenous dipyridamole. Comparison of qualitative and quantitative approaches, 370

**Myocardial scarring**

Comparison of amount and extent of coronary narrowing by atherosclerotic plaque and of myocardial scarring at necropsy in anterior and posterior healed transmural myocardial infarction, 93

**Myocardial vascularity**

Effects of physical training on myocardial vascularity and perfusion, 491

**Myocarditis**

Animal model of congestive cardiomyopathy. Letter and response, 1349

An animal model of congestive (dilated) cardiomyopathy: dilatation and hypertrophy of the heart in the chronic stage in DBA/2 mice with myocarditis caused by encephalomyocarditis virus, 355

**Myocytes**

Myocyte disarray develops in papillary muscles released from normal tension after mitral valve replacement, 841

## N

**Naloxone**

Possible involvement of an endogenous opioid in the antihypertensive effect of clonidine in patients with essential hypertension, 1268

**Necrosis**

Intermittent brief periods of ischemia have a cumulative effect and may cause myocardial necrosis, 1150

Uptake of iodine and radionuclides by the infarcted cardiac muscle. Letter and response, 1136

**Neonates**

Intrauterine and postnatal atrial fibrillation in the Wolff-Parkinson-White syndrome, 1124

Pulmonary atresia and intact ventricular septum: a revised classification, 266

Pulmonary atresia and intact ventricular septum: surgical management based on a revised classification, 272

**New York Heart Association**

Philosophy of the New York Heart Association regarding assessment of cardiovascular function. Letter, 249

**Nifedipine**

The additive antianginal action of oral nifedipine in patients receiving propranolol. Magnitude and duration of effect, 710

Effects of a calcium-channel antagonist on large and small coronary arteries in conscious dogs, 579

Nifedipine in hypertrophic cardiomyopathy. Letter and response, 478

**Nitrates**

Editorial: The nitrates and myocardial ischemia, 689

**Nitroglycerin**

Analysis of coronary responses to various doses of intracoronary nitroglycerin, 321

Arterial-venous nitroglycerin gradient during intravenous infusion in man, 1273

Evaluation of antianginal drugs. Letters and response, 902

**Nitroprusside**

The interaction of sodium nitroprusside with human endothelial cells and platelets: nitroprusside and prostacyclin synergistically inhibit platelet function, 1299

**Noninvasive testing**

Evaluation of noninvasive tests of cardiac damage in suspected cardiac contusion, 627

An improbable criterion of normality. Letter, 681

**Norepinephrine**

Neuronal and adrenomedullary catecholamine release in response to cardiopulmonary bypass in man, 49

Plasma catecholamines, platelet aggregation and associated thromboxane formation after physical exercise, smoking or orepinephrine infusion, 44

**Norwegian Multicentre Study Group**

Timolol-related reduction in mortality and reinfarction in patients ages 65-75 years surviving acute myocardial infarction, 1179

**Nuclear cardiology**

Editorial: Quantitative imaging in nuclear cardiology, 1141

**Nuclear magnetic resonance**

Quantification of experimental myocardial infarction using nuclear magnetic resonance imaging and paramagnetic ion contrast enhancement in excised canine hearts, 1012

## O

**Obesity**

Borderline hypertension and obesity: two prehypertensive states with elevated cardiac output, 55

Lipomatous hypertrophy of the interatrial septum: in vivo diagnosis, 470

**Opioids**

Possible involvement of an endogenous opioid in the antihypertensive effect of clonidine in patients with essential hypertension, 1268

**Oxygen**

Arterial oxygenation and arterial oxygen transport in chronic myocardial failure at rest, during exercise and after hydralazine treatment, 143

The effect of intraaortic balloon counterpulsation on regional myocardial blood flow and oxygen consumption in the presence of coronary artery stenosis in patients with unstable angina, 593

## P

**Pacemakers**

Electrotonic modulation of pacemaker activity. Further biological and mathematical observations on the behavior of modulated parasystole, 1225

A scanning and transmission electron microscopic study of an infected endocardial pacemaker lead, 1339

**Papillary muscles**

Myocyte disarray develops in papillary muscles released from normal tension after mitral valve replacement, 841

**Paradoxical pulse**

Mechanism of paradoxical pulse in bronchial asthma, 887

**Paramagnetic ions**

Quantification of experimental myocardial infarction using nuclear magnetic resonance imaging and paramagnetic ion contrast enhancement in excised canine hearts, 1012

**Parasystole**

Electrotonic modulation of pacemaker activity. Further biological and mathematical observations on the behavior of modulated parasystole, 1225

Modulation of parasystolic activity by nonparasystolic beats, 462

**Percutaneous transluminal coronary angioplasty**

Acute coronary artery occlusion during percutaneous transluminal coronary angioplasty: reopening by intracoronary streptokinase before emergency coronary artery surgery to prevent myocardial infarction, 1325

Cholesterol after angioplasty. Letter and response, 1139

Current Topics: Guidelines for the performance of percutaneous transluminal coronary angioplasty, 693

Exercise electrocardiography and myocardial scintigraphy in the serial evaluation of the results of percutaneous transluminal coronary angioplasty, 380

Improved left ventricular diastolic filling in patients with coronary artery disease after percutaneous transluminal coronary angioplasty, 1159

Percutaneous transluminal coronary angioplasty immediately after intracoronary streptolysis of transmural myocardial infarction, 905

Percutaneous transluminal coronary angioplasty in patients with variant angina, 695

Transluminal angioplasty in experimental atherosclerosis. Analysis for embolization using an in vivo perfusion system, 917

**Perfusion bed**

Quantitative effect of early coronary artery reperfusion in baboons. Extent of salvage of the perfusion bed of an occluded artery, 391

**Perfusion fields**

The microcirculation of the human heart: end-capillary loops with discrete perfusion fields, 1241

**Perfusion, myocardial**

Effects of physical training on myocardial vascularity and perfusion, 491

**Perfusion, regional myocardial**

Two-dimensional echocardiography in experimental coronary stenosis. II. Relationship between systolic wall thinning and regional myocardial perfusion in severe coronary stenosis, 603

**Pericardial effusion**

Huge chronic pericardial effusion caused by *Toxoplasma gondii*, 895

**Phase image**

Synchronicity of contraction in patients with CAD. Letter and response, 248

**Pirbuterol**

Pirbuterol, an oral beta-adrenergic receptor agonist in the treatment of chronic cardiac failure, 1262

**Plasma renin activity**

Preoperative and postoperative renin levels in coarctation of the aorta, 513

**Platelet factor 4**

Studies of platelet factor 4 and beta thromboglobulin release during exercise: lack of relationship to myocardial ischemia, 33

**Platelets**

The effect of ibuprofen on accumulation of indium-111-labeled platelets and leukocytes in experimental myocardial infarction, 1002

Effects of propranolol therapy on platelet release and prostaglandin generation in patients with coronary heart disease, 1294

Indium-111-labeled platelets: effect of heparin on uptake by venous thrombi and relationship to the activated partial thromboplastin time, 632

The interaction of sodium nitroprusside with human endothelial cells and platelets: nitroprusside and prostacyclin synergistically inhibit platelet function, 1299

Plasma catecholamines, platelet aggregation and associated thromboxane formation after physical exercise, smoking or norepinephrine infusion, 44

Platelet deposition on Dacron aortic bifurcation grafts in man: quantitation with indium-111 platelet imaging, 1287

Platelet function in coronary artery disease: effects of coronary surgery and sulfinpyrazone, 29

Platelet release and thromboxane synthesis in symptomatic coronary artery disease, 327

Studies of platelet factor 4 and beta thromboglobulin release during exercise: lack of relationship to myocardial ischemia, 33

**Porcine prosthetic heart valves**

Calcification of porcine prosthetic heart valves: a radiographic and light microscopic study, 1100

**Positive end-expiratory pressure**

Cardiopulmonary interactions. Letter and response, 1347

The effects of airway pressure on cardiac function in intact dogs and man, 108

**Postextrasystolic interval**

Postextrasystolic potentiation and echocardiography. The effect of varying basic heart rate, extrasystolic coupling interval and postextrasystolic interval, 771

**Postextrasystolic potentiation**

Postextrasystolic potentiation and echocardiography. The effect of varying basic heart rate, extrasystolic coupling interval and postextrasystolic interval, 771

Relations between myocardial blood flow and postextrasystolic potentiation in epicardial and endocardial left ventricular regions early after coronary occlusion in dogs, 938

**Postural changes**

Mechanisms governing the postural response and baroreceptor abnormalities in chronic congestive heart failure: effects of acute and long-term converting-enzyme inhibition, 135

Postural changes in pulmonary blood flow in pulmonary hypertension: a noninvasive technique using ventilation-perfusion scans, 621

**Preload**

Afterload mismatch and preload reserve in chronic aortic regurgitation, 826

Effect of preload variations on LV performance. Letter and response, 680

**Premature ventricular complexes**

The relationship between ventricular ectopic beat frequency and heart rate, 439

**Prenalatorol**

Hemodynamic effects of prenalatorol in patients with ischemic heart disease and congestive cardiomyopathy, 361

**Pressure gradient**

Muscular subaortic stenosis: the temporal relationship between systolic anterior motion of the anterior mitral leaflet and the pressure gradient, 1087

**Princeton School Family Study**

Intrafamilial associations of lipids and lipoproteins in kindreds with hypertriglyceridemic probands: the Princeton School Family Study, 67

**Prognosis**

The natural history of coronary heart disease: prognostic factors after

recovery from myocardial infarction in 2789 men. The 5-year findings of the Coronary Drug Project, 401

Recurrent myocardial infarction: clinical predictors and prognostic implications, 415

**Propafenone**

Suppression of ventricular arrhythmias by propafenone, a new antiarrhythmic agent, during acute myocardial infarction in the conscious dog. A comparative study with lidocaine, 1190

**Propranolol**

The additive antianginal action of oral nifedipine in patients receiving propranolol. Magnitude and duration of effect, 710

A double-blind randomized trial of propranolol and verapamil in the treatment of effort angina, 574

Effects of propranolol therapy on platelet release and prostaglandin generation in patients with coronary heart disease, 1294

Pharmacologic modification of myocardial ischemia, 548

Plasma catecholamines, platelet aggregation and associated thromboxane formation after physical exercise, smoking or norepinephrine infusion, 44

**Prostacyclin**

The interaction of sodium nitroprusside with human endothelial cells and platelets: nitroprusside and prostacyclin synergistically inhibit platelet function, 1299

Prostacyclin-induced acute pulmonary vasodilation in primary pulmonary hypertension, 334

**Prostaglandins**

Effects of propranolol therapy on platelet release and prostaglandin generation in patients with coronary heart disease, 1294

Key references: Prostaglandin and cardiovascular disease, 474

**Public policy**

Choices that must not be made, 481

**Pulmonary embolism**

Echocardiographic identification of right-sided cardiac intracavitary thromboembolus in massive pulmonary embolism, 1322

**Pulsus alternans**

Pulsus alternans. Letter, 479

**Q****QRS**

QRS scoring system for estimating infarct size. Letter and response, 251

**QT interval**

Editorial: The QT interval and sudden infant death syndrome, 502

Effect of heart rate and autonomic tone on the QT interval. Letter, 478

Problems of QT measurement. Letter and response, 1137

The QT interval throughout the first 6 months of life: a prospective study, 496

**Quinidine**

Digoxin-quinidine interaction in patients with chronic renal failure, 1277

**R****Rabbit studies**

The cellular electrophysiologic mechanism of the dual actions of disopyramide on rabbit sinus node function, 1216

Pharmacologic modification of myocardial ischemia, 548

Transluminal angioplasty in experimental atherosclerosis. Analysis for embolization using an in vivo perfusion system, 917

**Recurrent Coronary Prevention Project Study**

Feasibility of altering type A behavior pattern after myocardial infarction. Recurrent Coronary Prevention Project Study: methods, baseline results and preliminary findings, 83

**Red blood cells**

Effect of exercise on erythrocyte count and blood activity concentration after technetium-99m in vivo red blood cell labeling, 638

**Regional blood flow**

Myocardial function in areas of heterogeneous perfusion after coronary artery occlusion in conscious dogs, 1154

**Regurgitation, aortic**

Afterload mismatch and preload reserve in chronic aortic regurgitation, 826

**Regurgitation, mitral**

Assessment of transesophageal pulsed Doppler echocardiography in the detection of mitral regurgitation, 784

"Myxomatous" mitral valves: collagen dissolution as the primary defect, 288

**Regurgitation, tricuspid**

Evaluation of tricuspid regurgitation by pulsed Doppler and two-dimensional echocardiography, 777

The tricuspid valve annulus: study of size and motion in normal subjects and in patients with tricuspid regurgitation, 665

**Reinfarction**

Timolol-related reduction in mortality and reinfarction in patients ages 65-75 years surviving acute myocardial infarction, 1179

**Renal failure**

Digoxin-quinidine interaction in patients with chronic renal failure, 1277

**Renin-angiotensin system**

Renin-angiotensin system inhibition in acute myocardial infarction in dogs. Effects on systemic hemodynamics, myocardial blood flow, segmental myocardial function and infarct size, 1249

**Reperfusion, coronary artery**

Quantitative effect of early coronary artery reperfusion in baboons. Extent of salvage of the perfusion bed of an occluded artery, 391

**Reperfusion, myocardial**

Divergent effects of inotropic stimulation on the ischemic and severely depressed reperfused myocardium, 397

**Research**

Choices that must not be made, 481

James B. Herrick Lecture: Remarks on the present state and future of academic cardiology, 487

**Resuscitation, cardiopulmonary**

Ambulatory arrhythmias in resuscitated victims of cardiac arrest, 212

Key references: Cardiopulmonary resuscitation. Part II, 1133

Relative lack of coronary blood flow during closed-chest resuscitation in dogs, 297

**Rheumatic fever**

The Jones criteria and the challenges of clinimetrics, 1

**Richards, Dickinson, Memorial Lecture**

Dickinson Richards Memorial Lecture: A Postscript to *Circulation of the Blood: Men and Ideas*, 683

**Right ventricle**

A new two-dimensional echocardiographic technique for evaluating right ventricular size and performance in patients with obstructive lung disease, 612

Radionuclide ventriculography for assessment of absolute right and left ventricular volumes in children, 811

RV response to MI. Letter and response, 251

**Risk factors**

Choices that must not be made, 481

Recurrent myocardial infarction: clinical predictors and prognostic implications, 415

Relationship of education to major risk factors and death from coronary heart disease, cardiovascular diseases and all causes, 1308

**S****Sarcoma**

Preoperative angiographic diagnosis of primary sarcoma of the pulmonary artery, 672

**"Sawfish" systolic narrowing**

"Sawfish" systolic narrowing of the left anterior descending coronary artery: an angiographic sign of hypertrophic cardiomyopathy, 800

**Scar formation**

Enhanced detection of the evolution of tissue changes after acute myocardial infarction using color-encoded two-dimensional echocardiography, 64

**Septicemia**

A scanning and transmission electron microscopic study of an infected endocardial pacemaker lead, 1339

**Sex**

Sex differences in obstructive coronary artery disease in patients 65 years of age or older with angina pectoris, 926

**Sick sinus syndrome**

The sinus node electrogram in patients with and without sick sinus syndrome: techniques and correlation between directly measured and indirectly estimated sinoatrial conduction time, 864

**Sinoatrial conduction**

The sinus node electrogram in patients with and without sick sinus syndrome: techniques and correlation between directly measured and indirectly estimated sinoatrial conduction time, 864

**Sinus node**

The cellular electrophysiologic mechanism of the dual actions of disopyramide on rabbit sinus node function, 1216

The sinus node electrogram in patients with and without sick sinus syndrome: techniques and correlation between directly measured and indirectly estimated sinoatrial conduction time, 864

Sinus node in SIDS. Letter, 681

**Sinus rhythm**

Intraoperative electrophysiologic mapping of the ventricles during sinus rhythm in patients with a previous myocardial infarction. Identification of the electrophysiologic substrate of ventricular arrhythmias, 847

**Socioeconomic status**

Does dietary health education reach only the privileged? The Stanford Three Community Study, 77

**Sonomicrometry**

Two-dimensional echocardiography in experimental coronary stenosis. I. Sensitivity and specificity in detecting transient myocardial dyskinesia: comparison with sonomicrometers, 597

**ST segment**

Precordial ST-segment depression during acute inferior myocardial infarction: clinical, scintigraphic and angiographic correlations, 732

**Stanford Three Community Study**

Does dietary health education reach only the privileged? The Stanford Three Community Study, 77

**Stenosis, aortic**

Fluid dynamics of aortic stenosis: subvalvular gradients without subvalvular obstruction, 835

**Stenosis, coronary artery**

The effect of intraaortic balloon counterpulsation on regional myocardial blood flow and oxygen consumption in the presence of coronary artery stenosis in patients with unstable angina, 593

Experimental validation of quantitative coronary arteriography for determining pressure-flow characteristics of coronary stenosis, 930

Native collaterals in the development of collateral circulation after chronic coronary stenosis in mongrel dogs, 303

Serial thallium-201 myocardial imaging after dipyridamole infusion: diagnostic utility in detecting coronary stenoses and relationship to regional wall motion, 649

Significance of the angiographic morphology of localized coronary stenoses: histopathologic correlations, 316

Two-dimensional echocardiography in experimental coronary stenosis. I. Sensitivity and specificity in detecting transient myocardial dyskinesia: comparison with sonomicrometers, 597

Two-dimensional echocardiography in experimental coronary stenosis. II. Relationship between systolic wall thinning and regional myocardial perfusion in severe coronary stenosis, 603

**Stenosis, subaortic**

Clinical presentation and natural history of mild discrete subaortic stenosis. Follow-up of 1-17 years, 09

Muscular subaortic stenosis: the temporal relationship between systolic anterior motion of the anterior mitral leaflet and the pressure gradient, 1087

**Streptokinase**

Acute coronary artery occlusion during percutaneous transluminal coronary angioplasty: reopening by intracoronary streptokinase before emergency coronary artery surgery to prevent myocardial infarction, 1325

- Percutaneous transluminal coronary angioplasty immediately after intracoronary streptolysis of transmural myocardial infarction, 905
